PhD
STUDIES:

4 years.

Studies consist of

30 ECTS comprising

4-5 study modules, at least one of them must be taken abroad,

→ and research

KAUNAS UNIVERSITY OF TECHNOLOGY OFFERS:

- outstanding doctoral programmes that are remarkable platform for PhDs to create new knowledge and provide qualification to young researchers for career in science, academia, economy and society in general by actively performing their original research;

- PhD Summer School, that provides opportunity to broaden students' methodological competences as well as transversal, soft and generic skills that are helpful for their career in science, a wider science-based labour market and in the labour market outside of science;

- incentives and rewards for active KTU PhD students;

- membership of KTU PhD Students Society, that focuses on regular exchange of ideas among doctoral candidates from different scientific disciplines, and fostering of disciplinary and interdisciplinary dialogue.
