KTU

# DEAR STUDENT,

Thank you for choosing studies at KTU. I value your trust in the University and the education it provides.

Globally, 2020 has seen its fair share of changes, which have demonstrated that innovation, technology and people are now more important than ever. New experiences and discoveries strengthen us, helping to overcome obstacles and allowing us to move forward.

To you personally, this year has also brought major changes: you are starting new studies, where you will meet unfamiliar faces and get to know a new country. Congratulations on choosing a new path that leads to the future. Build your own tomorrow with the acquired knowledge, competencies and experiences. Take every opportunity to prepare for the future, but do not forget to enjoy today's moments.

Also, you will probably hear the word ECIU more than once while studying. This abbreviation introduces the international organisation, of which KTU is a part of. ECIU brings together European and non-European higher education leaders with a strong culture of innovation. It is exciting that our University ranks among like-minded academic communities from Finland, Denmark, Germany, Ireland and other countries. Both KTU and ECIU unite those who are not indifferent to progress. I am sure you have these qualities too.

Welcome to KTU community!

May your studies be successful,

KTU rector **Eugenijus Valatka**

# THE HUMAN SIDE OF TECHNOLOGY

It's up to you → [ktu.edu](http://ktu.edu)

KTU

With this slogan, KTU introduces itself to the world. This short message conveys a lot.

Constant technological progress is changing the world in different forms by opening, accelerating, connecting, helping, complementing, and protecting it. There are so many ways to describe these changes, that it is impossible to list them all.

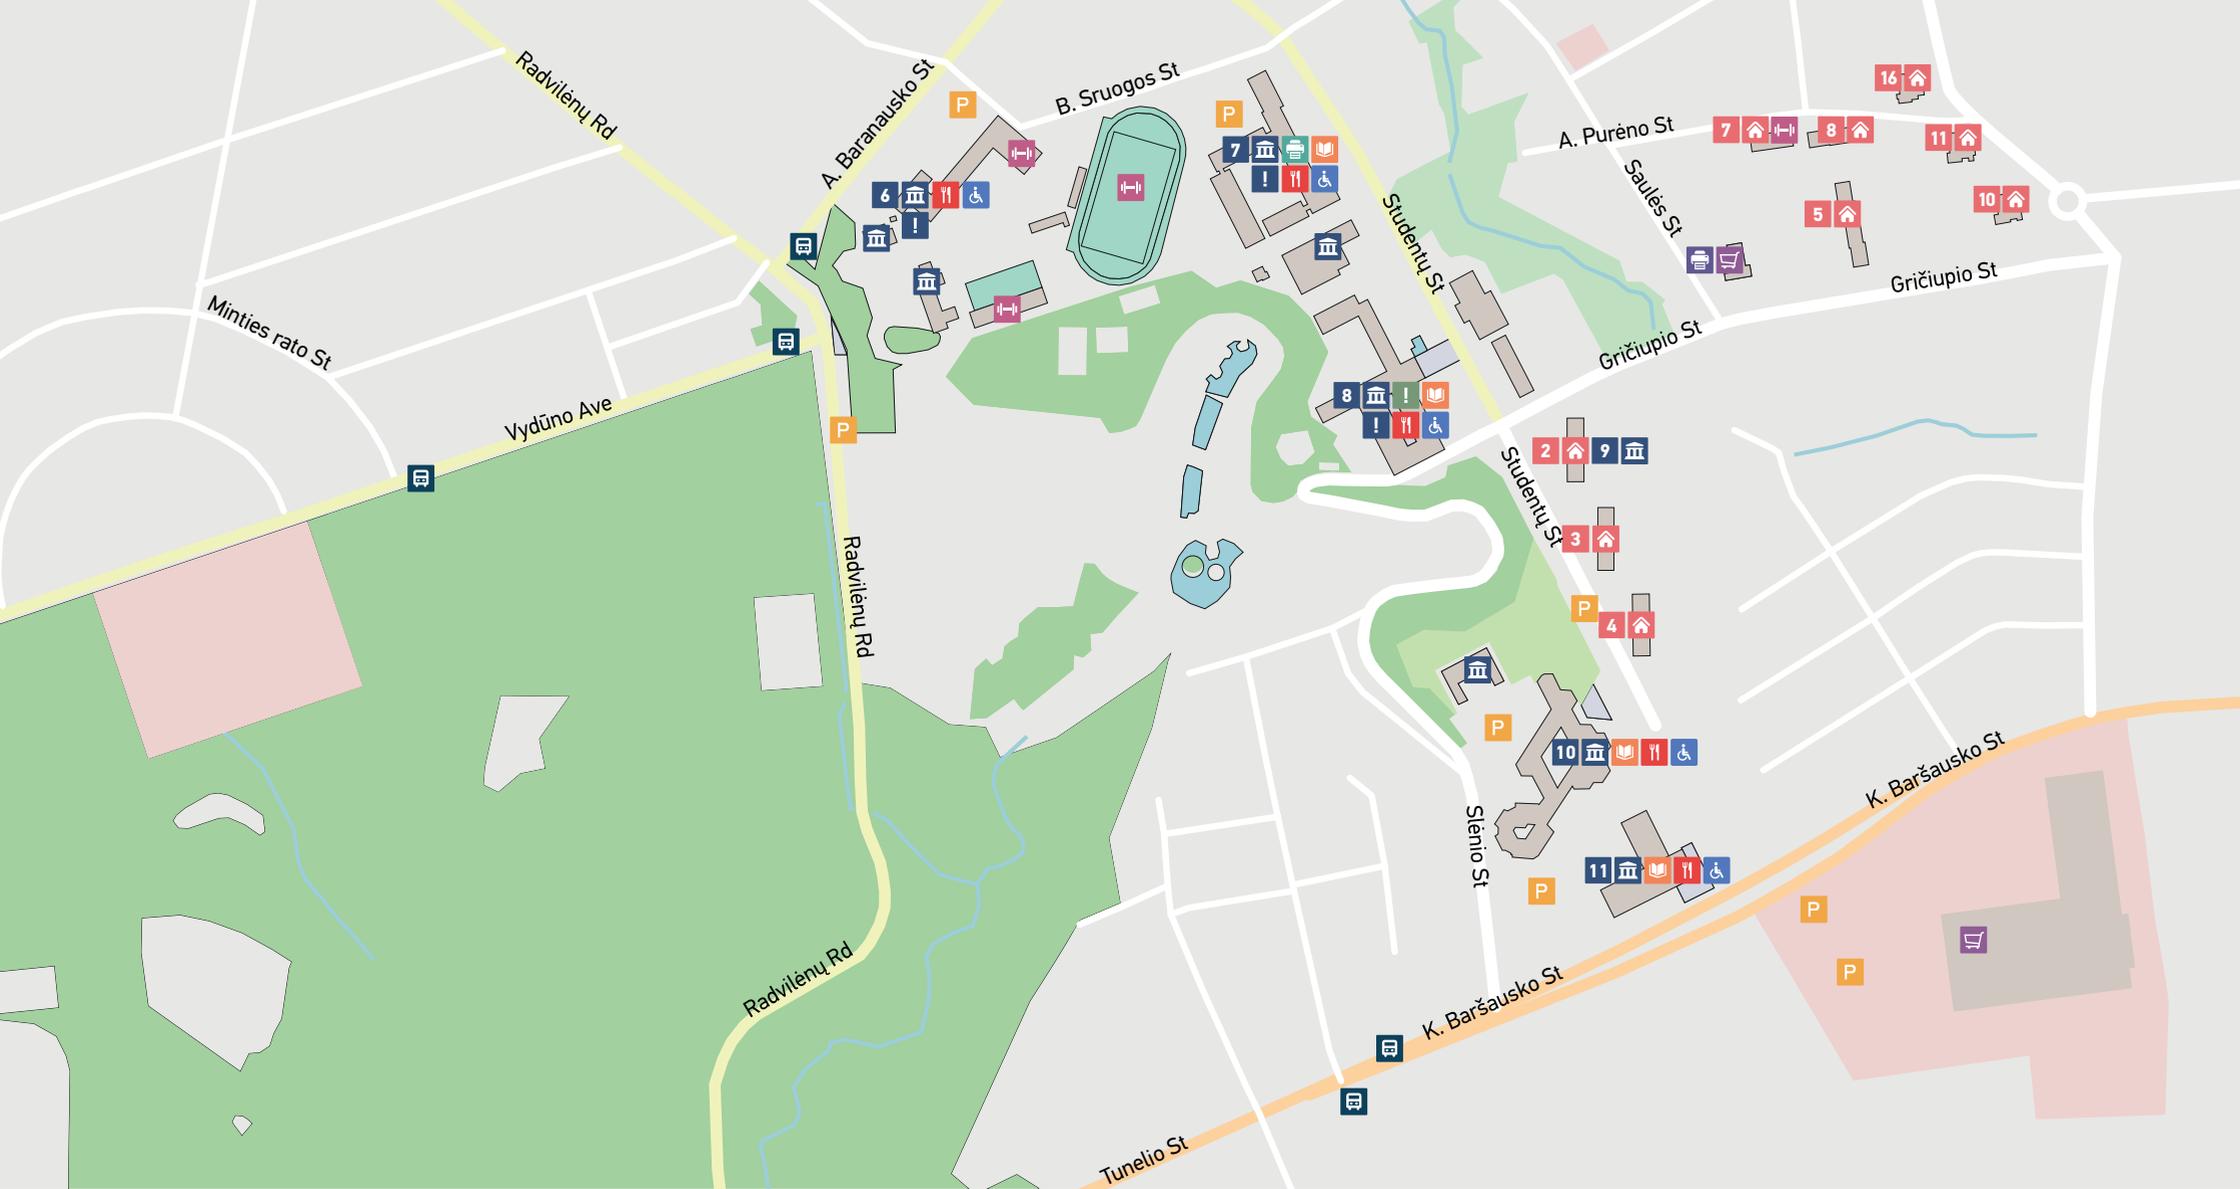

Technology is just a tool to expand our capabilities while Human must always remain in the centre of attention. Human with a capital H. What kind of person this human is? It is up to you to decide.

Just be aware that we are growing and improving together, so join us confidently. Good luck in your endeavours.

## ORGANISATION OF STUDIES

### **STUDY MODULE**

Study programme is made of study modules that are taught for one semester. A study module may include various combinations of lectures, laboratory work, practice, seminars, the student's independent work, scientific research, design work or other type of work.

Study modules may be mandatory, alternative (selected from a list), general and optional (from the list of modules University offers). Studies of each module are completed by an evaluation of the students-knowledge and skills – an examination or a different form of final assessment.

Find your timetable, assessment evaluation and other relevant information about studies in the Academic Information System (AIS).

### **STUDY CREDIT**

The scope of studies is measured in study credits that describe a student's workload. The full-time study workload for one year is 60 credits – 1600 work hours.

### **ASSESSMENT SYSTEM**

In the University, the cumulative assessment method is used: study results are measured by intermediate assessments, and the final grade is the sum of the results of intermediate assessments and the final assessment. A student is allowed to participate in the final assessment only if all intermediate assessments were submitted.

## LECTURE TIMES

|            |   |             |
|------------|---|-------------|
| <b>0</b>   | → | 7.45–8.45*  |
| <b>I</b>   | → | 9.00–10.30  |
| <b>II</b>  | → | 11.00–12.30 |
| <b>III</b> | → | 13.30–15.00 |
| <b>IV</b>  | → | 15.30–17.00 |
| <b>V</b>   | → | 17.30–19.00 |
| <b>VI</b>  | → | 19.15–20.45 |

\* mandatory, optional and bridging English courses for first cycle freshers

## ATTENDANCE

It is mandatory to attend classes at KTU: 100% in laboratory works, ≥80% in practical classes, ≥80% in lectures. The specific attendance requirements are set by each teacher and are presented in the first class of the module. Disciplinary penalties are applied to students who do not attend classes under the determined procedure.

## TUITION FEES

In the University, tuition fees are applied for:

- studying in non-state-funded positions;
- retaking separate study modules;
- studying additional modules that are not included in your study programme;
- retaking the intermediate or final module assessment for a second time;
- retaking a module in the following semester due to have not passed the final module assessment.

## ACADEMIC HELP

Complex academic support is provided to our students:

- “GUIDed” mentorship programme;
- individual professors’ consultations;
- bridging courses of the core subjects of studies (English, Math, Physics, Chemistry, IT).

## ACADEMIC HONESTY

The base of the culture of your University is academic values and principles of ethics. Academic honesty is one of the most important academic University values. Remember that no form of cheating in attempt to get a grade for your individual semester tasks and no form of cheating in final assessments are tolerated. Dishonest conduct has consequences – you receive an academic penalty, consequently losing the right to retake your assessments. Having breached the Code of Academic Ethics the student could be expelled from the University.

All study regulations and documents can be found in KTU students’ intranet “Office 365”. Students must get acquainted with recent and relevant orders and documents and follow their changes.

## EQUALITY AND DIVERSITY POLICY

The University’s Equality and Diversity Policy includes the following dimensions – gender equality, diversity, discrimination, harassment. The objective of these Guidelines is to ensure the equal position of all the University’s employees, students and the persons applying to the University regardless of their gender, sexual orientation, disability, age, race, ethnic origin, nationality, religion, belief, language, background, social status, views or opinions, citizenship, family status, intentions to have a child (children) and application of the equal opportunities and diversity principle in all the areas related to the University’s functions.

For Bachelor's students

### **BA+ STUDY MODEL** →

A student who chooses BA+ competence, acquires the knowledge and skills in an additional study field, and discovers new career prospects. BA+ competence blocks offered in KTU Bachelor's study programmes can be an alternative study plan for the specialisations, individual set of modules, and the subjects providing deeper knowledge of the study field. An option of BA+ competence model is indicated next to each Bachelor's study programme. The students can choose BA+ competences from the lists of competences selected for specific study programmes that have an option of BA+.

Choose your competencies for the BA+ Bachelor's programme. Information about applications will reach your academic e-mail.

For Master's students

### **MA+ STUDY MODEL** →

Master studies at Kaunas University of Technology are the first such studies in Lithuania. They are meant for the new generation, as they meet both the society and market requirements and the global trends while focusing the most on developing personal competencies of each individual. MA+ offers the opportunity to participate in research groups, work on international projects together with scientists and apply your newly acquired knowledge.

Choose your competencies for the MA+ Master's programme. Information about applications will reach your academic e-mail.

## SERVICES

### **DORMITORIES** →

KTU offers dormitory accommodation where students can have a single or a shared room (2 or 3 people), may use the kitchen, laundry, internet and other facilities. Monthly rent rates vary depending on the room type, ranging from 79 to 154 EUR. If you have login data to the University's Academic Information System and University's email system, you can reserve a place at the dormitory in the Dormitory Reservation System. Otherwise please contact [dormitory@ktu.lt](mailto:dormitory@ktu.lt).

2020

STUDENT'S notes

KTU

### **PSYCHOLOGICAL SUPPORT** →

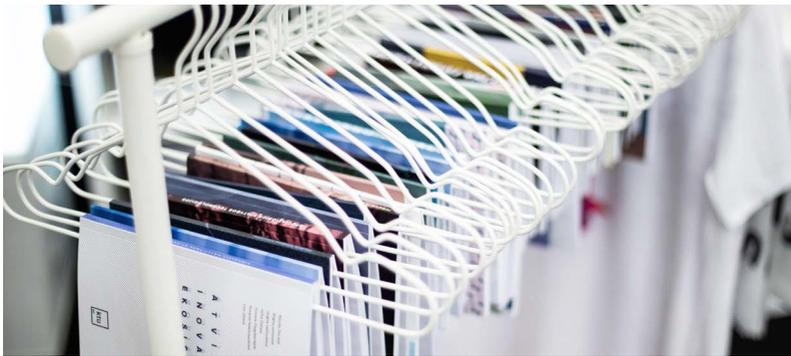

KTU students are offered psychological support free of charge. Individual and group consultations, stress management and relaxation sessions will help you overcome any difficulties!

*To register for an individual consultation or any other session contact KTU psychologist via e-mail [psichologas@ktu.lt](mailto:psichologas@ktu.lt)*

## LIBRARY →

In the library, you will find individual and co-working spaces, computers and internet connection, also leisure and relaxation areas. There are workspaces and equipments for students with special needs. You are welcome to read and borrow printed materials and copy, scan or print document extracts. You can access the global e-information resources at the University and from home 24/7 via VPN (Virtual Private Network). During the training sessions given by the library staff you will learn how to find information resources and use them effectively. If you need help, please contact your subject librarian.

## DIGITAL BADGES →

Digital badges certificates and a new digital standard for acknowledgment of the non-formal learning and education achievements. **Download the Badge Wallet app** and start collecting your badges! Digital badges are awarded for: volunteering, additional and volunteer internships, additional education/learning at KTU, research activities, transfer of knowledge and experience, achievements in Olympiads, contests and competitions, participation in library training sessions.

## IT USER REGISTRATION

KTU has implemented a unified connection to the University's information systems and information technology (IT) services. After signing the study agreement by e-mail you will receive an information letter, which invites you to register an IT user login.

## E-MAIL →

For the University students e-mail services during entire study period are provided in the Microsoft "Office 365" environment in the namespace ktu.edu. All study related information and faculty letters are sent to the official academic e-mail (@ktu.edu). In order to receive answers to all questions and request it is essential to use only this e-mail provided by KTU.

## AIS →

In the **Academic Information System (AIS)** you will find information on: individual study plans and study results; semester schedule and registration to modules; paid and unpaid contributions, ordering certificates; the orders prepared for you; details and status of settlement with the University; selection and review of specialization and related study programmes; study surveys; mentoring programmes, etc.

## VIRTUAL RESOURCES

In the Virtual Learning Environment – MOODLE, teachers submit study material, tasks, tests and any additional information for students. In addition, library training material is available. Join here: <https://moodle.ktu.edu>

The University's Publishing House "Technologija" has opened an online reading platform at [ebooks.ktu.edu](https://ebooks.ktu.edu) and [ebooks.ktu.lt](https://ebooks.ktu.lt).

"Office 365" – an information storage environment where you can find the most important documents, request forms, guidelines and KTU templates for presentations. You will also find information about the software, which you will be able to use for free during your studies.

## DESIGNLIBRARY KAUNAS →

DesignLibrary Kaunas is a project between KTU Design Centre and DesignLibrary Milano. The aim of this project is to raise awareness about Design, science, arts and current trends, diffuse and share Design culture, and promote the collaboration between studies, science/ arts and business. Here you can find not only books, but the opportunity to attend "Design Thursdays" events, meet Design experts, create projects, and develop in the creative sector both locally and internationally. Interested?

Get in touch - [info.kaunas@designlibrary.it](mailto:info.kaunas@designlibrary.it)

## STARTUP SPACE →

It is an open community of Kaunas start-ups that unites creative teams from their earliest stage – the idea. Startup Space actively works with innovative start-ups trying to discover a potential of young entrepreneurs and encourage them to make their dreams come true. It offers:

- team coordination, consultation, mentorship;
- support from experts;
- training, events;
- assistance in search of partners;
- a community.

# HOW TO MANAGE YOUR FINANCES WHILE STUDYING AT UNIVERSITY

Starting an independent life can make it difficult to learn how to manage your finances properly. We share a few tips to help you discover some great alternatives during your studies and choose the most practical options so that your budget would not be exceeded until the end of the month.

Choose to live in a dormitory, you will not only save money, but also make new friends and expand your social circle.

- If you choose to rent an apartment or house, do so together with other students – you will reduce the cost of renting and be able to split the utility bills.
- Care not only for your wallet, but also the environment – use public transport, the infrastructure will not allow you to be late for lectures.
- Plan your expenses and track your cash balance regularly so you do not have to borrow money.
- Visit a KTU career planning consultant who will help you to make important decisions and get ready for the job market.
- Sign up for free events.
- Take advantage of the discounts available to students and buy what you want at a lower price.
- Join the University Sports Club or the Sports and Wellness Centre teams and stay in good physical shape free of charge.

### **"ERASMUS+"**

→ "ERASMUS+" is the most popular student exchange programme in Europe. It offers the opportunity to study and acquire hands-on experience, creates an environment of openness and tolerance and encourages the dialogue of cultures and a global way of thinking. Erasmus scholarships – up to 700 EUR/ month!

### **"ERASMUS+" STUDIES**

→ KTU has almost 400 partners offering quality programmes and new student experiences. These studies are fully transferable between universities and the results are included in your diploma. The call for applications is announced in September and March.

### **INTERNSHIPS**

→ You can do internships in the companies, science research centres and other organisations that are in the countries participating in the "ERASMUS+" programme. You can do summer internships in between semesters and (or) an internship after graduation. During your mandatory summer internship, you will acquire professional knowledge, get acquainted with the job market requirements and establish both business and new personal relations.

### **BILATERAL EXCHANGE OUTSIDE OF EUROPE!**

→ You can travel abroad for 1-2 semester exchange studies and for the summer / winter programmes, as KTU has a number of bilateral cooperation and student exchange agreements with partner universities. For KTU students, study in partner universities is free of charge (except for summer schools). The travel and accommodation abroad costs are to be covered by the student with the chance to be awarded a KTU mobility scholarship.

## GROW YOUR TALENT

It is a talent development programme providing all the possibilities for the talented students of Kaunas University of Technology (KTU) to improve and realise their abilities in science and business areas by participating in the "Challenge" activities.

If you are interested in the theoretical and practical side of the world, research, entrepreneurship, projects, discussion, new ideas, creativity and have the strength and enthusiasm to realize them – this programme is for you.

How to become a "GIFTed" student?

- Join the KTU with a competition score not lower than 8;
- Submit your application in your AIS (from August 24 until September 14).

## DEVELOPING PARTNERSHIP

The persons who have had a mentor in their life adapt more quickly and successfully, their achievements are higher and they do not repeat the same mistakes.

Mentorship provides students with a possibility to have their personal teacher and role model who cares about the student's achievements, who can listen, teach the student to learn more efficiently, think critically and creatively, give advice, and help to develop the competencies required for the student's career.

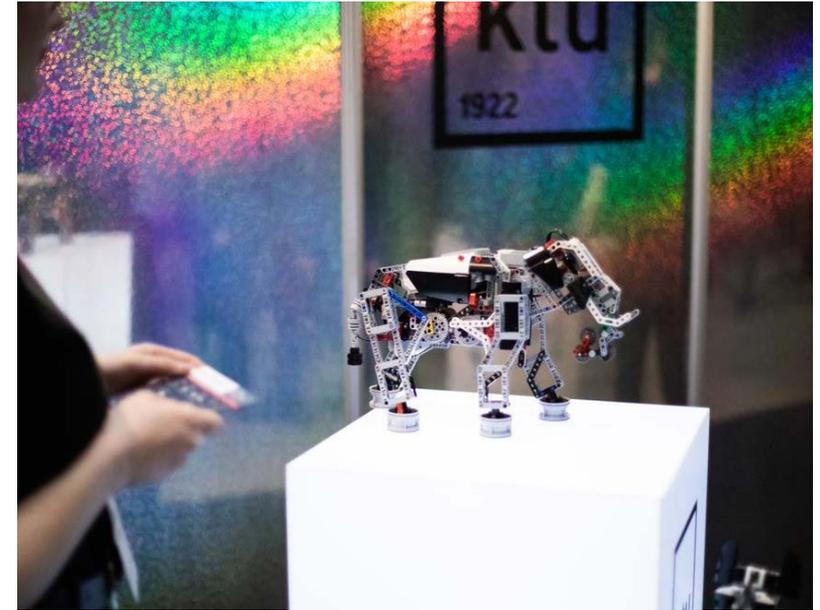

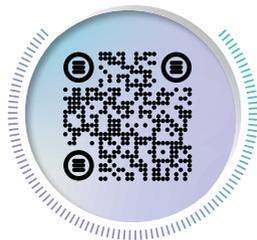

Everyone can choose a mentor at the University, because there are 5 different types of mentors. The students can choose the mentors in each stage of their studies. Each mentor has different functions; therefore goals and style of communication vary.

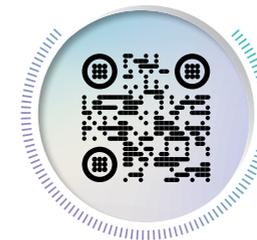

## DEVELOP YOUR CAREER

Do you want fast employment and career progress? The events and seminars will help you understand the latest labour market trends better, form a comprehensive view of your career, plan your studies more effectively, develop your personal competencies that will help you achieve your career goals and become a marketable specialist or competitive entrepreneur. "WANTed" is a programme for the development of your career competencies available to all the students.

The programme is designed for motivated students who wish to acquire strong competencies in the field of financial technology in addition to their chosen study programmes in Applied Mathematics, Software Systems, Information Systems, Informatics, Economics and Finance.

Each student will be able to make a valuable and exceptional network for personal and professional development. They will be able to expand their curriculum with additional study modules providing knowledge in the field of financial technology, as well as, be able to plan and manage a career in cooperation with career mentors from the financial technology business sector.

## RELEASE YOUR CREATIVITY

Kaunas University of Technology has six art societies. University's students are invited to spend their free time improving their skills in dancing, singing, photography, and other skills. Events of the societies, which are led by nationally and internationally renowned professionals, contribute significantly to our country's cultural life.

Join the fostering of national art, singing in a choir, photography, try acting, dancing or playing in a wind instruments group.

## PHYSICAL ACTIVITY

Sports and Wellness Centre – modern, open to positive change, fosters the values of physical activity and sports, creates suitable conditions for physical education, strengthens and preserves health and work capacity. Members of the KTU community are invited to play sports for free at twelve sports bases. The sports club has gyms for cardio and strength training, boxing and TRX belts, and you can choose from eight different group activities. The name of the university is famous for 14 teams of various sports that participate in national and international events and championships.

The KTU community has the opportunity to exercise in the new and modern sports club "ACTIVATed".
