101. A competition score is a numerical expression of the components of the competition score calculated for each candidate in each study programme. It consists of a sum of the components of the competition score multiplied by weighted coefficients.

102. **The components of the competition score:**

102.1. A weighted grade point average of the evaluations of the subjects provided in the diploma supplement of the first cycle or integrated studies in a ten-point grading scale (weighted

coefficient – 0.7); at the decision of the admission commission, the evaluations provided in the certificate of additional or minor studies can be added to the evaluations of the subjects;

102.2. Evaluation of research activities (scientific publications, presentations at scientific conferences, participation in exhibitions, work in the students' scientific society, etc.) or artistic activities (publishing or realisation of the works of art, participation in art exhibitions and architectural competitions) in a ten-point grading scale (weighted coefficient – 0.2) when applying to the study programmes of the art field;

102.3. Motivation assessment in a ten-point grading scale (weighted coefficient – 0.1).

103. The formula of the competition score: $KB = 0.7*SV + 0.2*MMV + 0.1*MV$ (according to the components specified in Subparagraphs [102.1](#)-[102.3](#)).

104. Additional 0.5 points can be added to the competition score for:

104.1. Knowledge of the foreign language at least the level B2 if the applicant attaches to his/her application the following documents:

104.1.1. A certificate certifying the level of the knowledge of the foreign language issued by a competent institution within the last 2 years;

104.1.2. A diploma of the higher or equivalent education (Bachelor's or Master's) of the foreign language in the philology field; in this case level C1 is acknowledged;

104.1.3. A supplement to the diploma of the higher or equivalent education indicating that at least half of the credits specified in the diploma are acquired in the foreign language; in this case level C1 is acknowledged;

104.1.4. A supplement to the diploma of the higher or equivalent education specifying that the person has studied a second foreign language and achieved at least level B2 (the level of the studied language has to be specified);

104.1.5. The English language is not considered the second foreign language unless the documents certifying the knowledge of the language other than English as the first foreign language;

104.2. Partial studies at a foreign higher education institution if the applicant attaches to his/her application a diploma supplement to the Bachelor's or integrated studies specifying at least 24 ECTS credits acquired during the partial studies at a foreign higher education institution;

104.3. An academic talent development programme of the higher education institution completed during the Bachelor's or integrated studies, for example, KTU "GIFTed Talent Academy", if the applicant attaches to his/her application the certificate of the completed programme.

105. The points are added for the same criterion only once, the additional points for various criteria are added; the sum of the components cannot exceed 1.5 points.

106. The principles for calculation of the competition score:

106.1. The evaluation of research/artistic activities may vary while calculating the competition score of the applicants to the study programmes of different groups of study fields;

106.2. If the diploma supplement (appendix) of the first cycle or integrated studies does not specify the subjects' volume in credits, the arithmetic average of the evaluations of the subjects provided in the diploma supplement (appendix) is used to calculate the competition score;

106.3. The evaluations in a five-point grading scale are converted into a ten-point grading scale and only then used in arithmetic calculations;

106.4. If the diploma supplement (appendix) contains any subjects credited without specified evaluations, their evaluations are not included in the calculated weighted grade point average and competition score;

106.5. The weighted grade point average of the evaluations of the subjects provided in the Bachelor's or professional Bachelor's diploma supplement and the certificate of additional studies is used in the calculation of the competition score of the persons who have completed additional studies. The evaluations of the subjects completed during the additional studies are equivalent to the subjects provided in Bachelor's or professional Bachelor's diploma supplement.

107. The applicant who fails to submit any proof of research/artistic activities and/or participate in the motivation assessment participates in the competition but loses a competition

component of 20 % for the evaluation of research/artistic activities and/or competition component of 10 % for the motivation assessment.

108. If applicants have an equal competition score, the higher place in the competition queue is assigned to the applicant, who has:

108.1. A higher evaluation of the final degree project or final examination(s);

108.2. A higher weighted grade point average of the evaluations provided in the diploma supplement (appendix), except for the evaluations of the final degree project or final examination(s);

108.3. A higher evaluation of research/artistic activities.

109. The expert assessment of the applicants' compliance with the additional requirements specified in [Appendix 4](#) to the Regulations is performed by the admission commissions of the faculties.

110. The compliance of the applicant applying to the study programmes of different study fields with the admission requirements specified in [Appendix 4](#) to the Regulations may vary.
