Language groups

# Activities

“Learning languages is a social process, which requires interaction, motivation, a safe learning environment, an active role of the person learning and a meaningful context.”

Source: International Migrant Outlook, OECD 2019

Its main activities are a crowdsourced language and culture exchange, and community-organized events.

Breaks language barriers through informal learning environments.

Creates important connections between migrants, refugees and locals.

Promotes diversity and acceptance in multicultural communities.

# Online & Offline language groups

# Events

# How?

1

Participants sign up to:

- a) learn a new language and culture;
- b) help others learn their language and culture;
- c) promote and participate in events.

2

Participants are then allocated according to their application preferences.

3

Participants learn or share a language, go to events, make new friends and build a network of support.
